

My name is Brandon Ewals-Strain and I am the owner and operator of Northern Colorado Pest and Wildlife Control in Greeley, Colorado. I have been in the industry for over 12 years and have extensive experience trapping woodpeckers and Northern Flickers. All legal trapped birds are euthanized and disposed of appropriately and all non-target birds would be released upon capture. My credentials include a bachelor's degree in wildlife biology and a master's degree in entomology, both from Colorado State University. We always try non-lethal attempts before we recommend a customer applying for a depredation permit. Once completed we will mail in the mandatory report log.

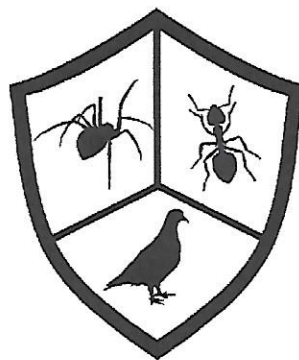

If you have any questions please let me know,

Northern Colorado Pest and Wildlife Control
